

Old Space New Place

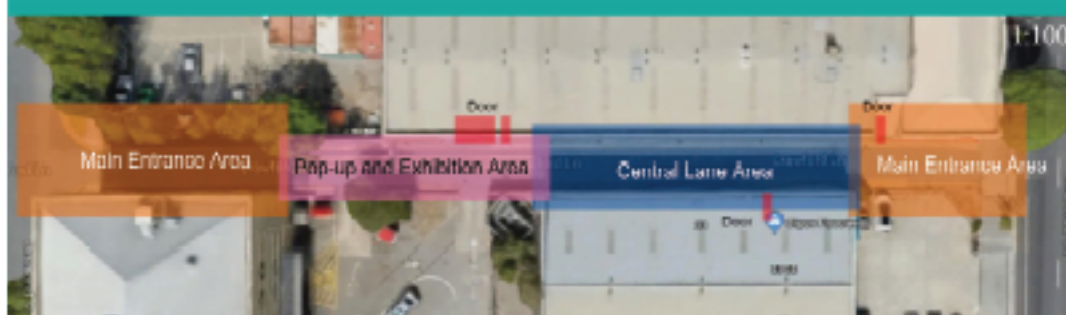

Local businesses told us they would like Crawford Lane (Manton Street to Orsmond Street) to become a unique lane in Hindmarsh filled with:

- Lighting
- Greening
- Places to sit
- Creativity & artwork

Thanks to the PlaceAgency consortium, funded by the Myer Foundation, City of Charles Sturt have partnered with the University of Adelaide School of Architecture and Built Environment to provide an opportunity for Master Students to learn from a live project and produce ideas to transform Crawford Lane from an Old Space to a New Place.

View some of the student design ideas on the Crawford Lane wall and have your say!

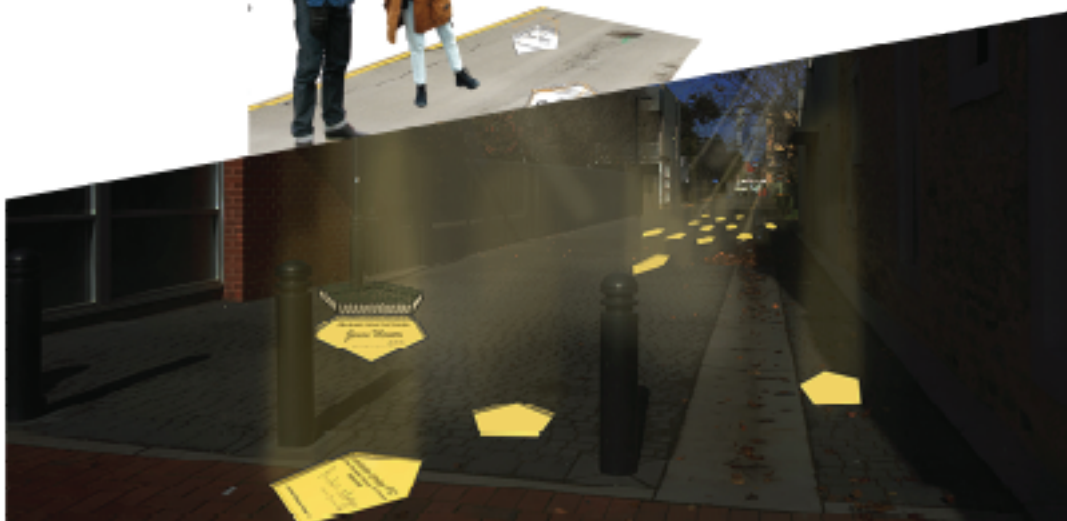

What do you want it to look like?
How do you want to use it?
